01 Clean the data

Steps:

1. Remove duplicate
2. Using filter check per column for blank value and delete it
3. Added "no information" in car parks and furnishing column because there is too much missing data in that column, so we can't delete the data but added the "no information" instead
4. Remove "RM" in price by split function
5. Split rooms column to additional rooms
6. Change format data
7. Trimmed whitespace
8. Checking again by using countblank
9. Do descriptive analysis using formula and/or XLMiner Analysis Toolpak. Because there is a big gap between the value before and after the outliers were taken out, I chose to delete the outliers

02 EDA

Top 3 location based properties

Use the pivot table by entering "location" in the row section and "properties" in the value section so that the 3 locations with the highest number of properties can be known.

Location	COUNTA of Property Type
Mont Kiara, Kuala Lumpur	636
KLCC, Kuala Lumpur	490
Desa ParkCity, Kuala Lumpur	299

Characteristic in Mont Kiara

Location	AVERAGE of Price	AVERAGE of Rooms	AVERAGE of Addition	AVERAGE of Bathrooms	AVERAGE of Car Parks
Mont Kiara, Kuala Lumpur	2,016,818	3	0.7814465409	4	2
Grand Total	2,016,818	3	0.7814465409	4	2

Mont Kiara has an average price of RM 2,016,818, with an average of 4 rooms (3 rooms + 1 additional room), 4 bathrooms, and 2 garages

- If you want more choices in booking a place to stay / lodging, it is recommended to choose the condominium type
- If you need a place to live / lodging that can be lived by many people and with a large size, it is advisable to order a bungalow type, but the disadvantage of this type is that the price tends to be more expensive compared to other types
- For those who are looking for a cheap place to live / lodging, it is recommended to choose serviced residence
